Bug Number	Description
Nil	Nil

Codesmell category	Description
Large Method	Methods containing more than 30 lines are considered to be large. Ex: The init method in Main class, move method in Bomber class.
<i>Lazy class / freeloader</i>	A Class that does too little work. Ex: The Person class and the Brick class.
<i>Inappropriate intimacy</i>	A class that has dependencies on implementation details of another class. Ex: The init method of Main class depends on the implementation of Board, Wall, Brick, Enemy, Bomb and the Bomber classes.
